

THE COMBINED FUND LONG-TERM INVESTMENT POOL

The Long-Term Pool is intended for investment of long-term, permanent endowment funds. These are funds in which the principal is protected and grown over time and that provide annual income to the fund beneficiary.

ALLOCATION – Approx. 63% in equity funds, 25% in fixed income funds, 10% in alternative investment funds (real estate, hedge funds, commodities, etc.) and 2% in cash.

RISK PROFILE – Goal is to protect the principal of the pool, provide acceptable annual income to fund beneficiaries, and to provide capital growth of the pool.

MINIMUM INITIAL INVESTMENT – \$5,000.00

WITHDRAWALS – Automatic withdrawals of distributable income may be taken quarterly or annually. Other withdrawals may be made on demand once per month. Trustees may require advance notice of withdrawals, depending on the size of the requested withdrawal.
